### SUMMARY

I design problem-solving products and delightful experiences. An education in science shapes my approach, and I focus on front-end development and design systems.

### EDUCATION

#### Metropolitan State University of Denver

B.S. Chemistry | *Magna cum laude*

#### Bloc

UX/UI Design Apprenticeship

### SKILLS

#### Design

Design Systems

Wireframing

Prototyping

Usability Testing

Mockups

#### Research

Interviews & Surveys

User Flows

Personas

Competitive Analysis

User Stories

#### Code

React

JavaScript

HTML5

CSS3 / Sass

Git / GitHub

Storybook

#### Tools

Figma

Visual Studio Code

Adobe Photoshop

Adobe Illustrator

Maze

FlowMapp

### PROJECTS

#### Dash *Design System*

- Created a scalable design system in Figma
- Coded and tested React components
- Documented interactive components in Storybook
- Deployed to GitHub and Chromatic

#### Groupup *Event Finder for Android*

- Quickly created and iterated on low and high fidelity prototypes
- Used user survey to discover goals and frustrations
- Analysed competitors strengths and weaknesses
- Tested prototype with Maze and designed solutions to problems

#### Cira *Cloud Storage for Designers*

- Researched cloud storage users and market
- Implemented scalable design system
- Created and tested low and high fidelity prototypes and designed solutions to problems
- Created brand guidelines and style guide

### EXPERIENCE

#### 3Play Media

##### *Editor*

- Edit transcripts for entertainment, education, and government media
- Work remotely and independently to meet tight deadlines
- Research diverse subjects to ensure accuracy and clarity
- Prioritize accessibility throughout projects

#### Bloc

##### *UX/UI Design Apprentice*

- Completed 1000+ hour project-based boot camp under the mentorship of accomplished UX professional
- Conducted usability testing with wireframes and high-fidelity prototypes and developed solutions to problems
- Built and launched prototypes of an Android app and responsive web applications on Github
- Created and developed brand identities, including brand name, brand guidelines, and logo
